

FOG - Gerenciamento dos computadores cadastrados

Os computadores (hosts) já cadastrados no FOG, podem ser gerenciados pelo menu **Hosts » List All Hosts**.

The screenshot displays the FOG Project web interface. At the top, there is a search bar and a navigation menu. The 'Host Management' section is active, showing a 'Main Menu' on the left and a table of 'All Hosts' on the right. The 'List All Hosts' option in the Main Menu is highlighted with a red arrow. The 'All Hosts' table contains two entries, each highlighted with a red border.

			Host	Imaged	Task	Assigned Image
?	☐	!	pb-396244 9c:8e:99:49:b1:ea	No Data	  	HP6005_240GB_Ubuntu2404_Teste
?	☐	!	pb-469104 3c:4a:92:6b:fd:2c	2025-01-22 19:45:58	  	HP6005_240GB_Ubuntu2404_Teste

Ao selecionar um deles clicando no seu nome, pode-se configurar alguns parâmetros, dentro os quais:

- **General » Host Name:** nome do host, parâmetro **importante** pois é ele quem irá definir o nome do host no sistema operacional depois de uma restauração de imagem
- **General » Host Image:** imagem associada ao host, se ela já foi definida no grupo ao qual o host pertence, não precisa ser mudado aqui. Porém se for preciso definir uma imagem específica para o host, este é o local onde deve ser configurado

- **Service Settings**: define diversos serviços associados ao host, como **Host Registration** e **Hostname Changer**, por padrão são todos habilitados (manter as configurações padrão)

The screenshot shows the FOG Project web interface. At the top, there's a navigation bar with 'FOG Project' and a search bar. Below it, a menu bar includes 'Info', 'General', 'Basic Tasks', 'Active Directory', 'Printers', 'Snapins', 'Service Settings' (highlighted with a red box), 'Power Management', 'Inventory', 'Virus History', and 'Login History'. The main content area is titled 'Host Management Edit: pb-469104'. On the left, a 'Main Menu' sidebar lists 'List All Hosts', 'Create New Host', 'Export Hosts', and 'Import Hosts'. The central panel is 'Host FOG Client Module configuration', which contains a table of 'Host module settings'.

- **Inventory:** mostra diversas informações do computador, para consulta apenas

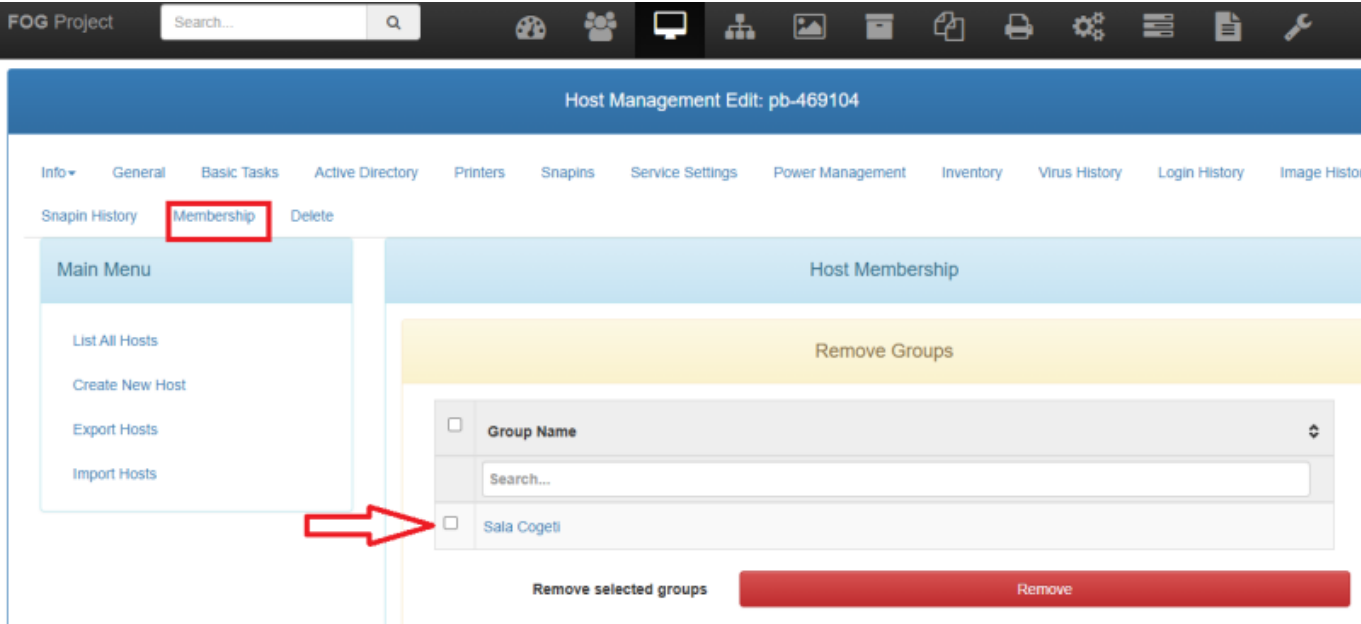

The screenshot shows the FOG Project web interface with the 'Inventory' tab selected. The navigation bar is the same as the previous screenshot. The main content area is titled 'Host Management Edit: pb-469104'. The 'Main Menu' sidebar is also present. The central panel is 'Host Hardware Inventory Editable', which contains a form with fields for 'Primary User', 'Other Tag #1', and 'Other Tag #2'. Below these fields is a 'Make Changes?' section with an 'Update' button. A large red arrow points from the 'Update' button to the 'Host Hardware Inventory Static' section below it. This section displays a table of system information.

Host Hardware Inventory Static	
System Manufacturer	Hewlett-Packard
System Product	HP Compaq 6005 Pro SFF PC
System Version	
System Serial Number	BRG102FSV3

- **Image History:** mostra o histórico e informações das capturas e deploys realizados no host

- **Membership:** mostra de qual grupo o host é membro, podendo remover o host do grupo caso seja necessário
