

Gerenciamento dos computadores cadastrados

Os computadores (hosts) já cadastrados no FOG, podem ser gerenciados pelo menu **Hosts » List All Hosts**.

The screenshot displays the FOG Project web interface. At the top, there is a search bar and a navigation bar with icons. The 'Host Management' section is active, showing a 'Main Menu' on the left with options: 'List All Hosts' (highlighted with a red arrow), 'Create New Host', 'Export Hosts', and 'Import Hosts'. The main area shows a table titled 'All Hosts' with columns: Host, Imaged, Task, and Assigned Image. Two hosts are listed, highlighted with a red box:

	Host	Imaged	Task	Assigned Image
?	pb-396244 9c:8e:99:49:b1:ea	No Data		HP6005_240GB_Ubuntu2404_Teste
?	pb-469104 3c:4a:92:6b:fd:2c	2025-01-22 19:45:58		HP6005_240GB_Ubuntu2404_Teste

Ao selecionar um deles clicando no seu nome, pode-se configurar alguns parâmetros, dentro os quais:

- **General » Host Name:** nome do host, parâmetro importante pois é ele quem irá definir o nome do host no sistema operacional depois de uma restauração de imagem
- **General » Host Image:** imagem associada ao host, se ela já foi definida no grupo ao qual o host pertence, não precisa ser mudado aqui. Porém se for preciso definir uma imagem específica para o host, este é o local onde deve ser configurado
